The Tradition and practice of the Catholic Christian faith are intrinsic to the entire curriculum and life of our school. We openly express our faith through prayer, scripture reading, liturgical celebration, and service to others. These bind us together as a community where all, regardless of differences, are welcome.

ST. PATRICK SCHOOL PRAYER

Creator God, we ask for peace, love and wisdom to guide us through this day. Grant us your eyes to see the way, your ears to hear the truth, your words to speak kindly, your hands to give willingly, and your ways to lead us gently to your kingdom. Through Jesus Christ our Lord and through the prayers of our patron, St. Patrick. **AMEN.**

ST. PATRICK CATHOLIC SCHOOL COUNCIL

The purpose of the school council is to help improve student achievement and to enhance the accountability of the education system to parents. School councils are advisory in nature and their main purpose is to make recommendations to the principal of the school and the school board. The meetings are open to the public to encourage input from parents and other members of the school community. Nominations and elections will take place in September. Your involvement and participation would be welcomed.

St. Patrick High School is a Catholic High School and all students are expected to take Religious Education Courses (one each year). POLICIES AND PROCEDURES

Section 1 General Information

1.1 Attendance

Attendance plays a critical role in students' achievement of curriculum expectations. It is the responsibility of each student to be in attendance at all times and with proper materials required for full participation. To be successful in a course, student performance will be monitored in a variety of ways: oral participation, contribution to group learning, ability to work independently and with peers. Students who habitually miss class will suffer in the evaluation process because their participation in class is a required component of every class, therefore lack of attendance will result in a lower grade. Appointments, part-time jobs, driving lessons, private music lessons etc., should be arranged at times other than when classes are in session or at exam times.

It is recognized that absences from school may occur as a result of:

- family emergencies
- illness of the student
- serious illness or death of a member of the family

Students who do not attend classes and who do not have acceptable excuses for their absences can expect to receive one or more:

- | | |
|---------------------------|----------------------------------|
| a) home contact | e) suspension from class |
| b) counseling | f) removal from class(no credit) |
| c) detentions | g) suspension from school |
| d) an attendance contract | |

Recommendations for removal from a class or the school roll will be made by a Vice-Principal, in consultation with the Principal.

Students who must leave the school for legitimate reasons (i.e. illness, medical appointments) during the school day are required to obtain an "excuse slip" from the office before leaving the building. If the student is under 18 and does not have a note signed by the parent/guardian specifying the date and the reason for leaving school, the office will contact the home before the student is excused.

Home Contact:

Maintaining regular home contact between the teacher and the home regarding attendance and progress is viewed as an essential component for success in school. Students must provide the office with their parent/guardian's phone number and notify the office immediately of any change.

Sign-In Procedure:

Students who are returning to school after an absence should report directly to class for admission with a note explaining their absence.

Late to Class:

Students are expected to be on time to each of their classes. The learning environment of others is disrupted when a student is late.

- Students arriving at school more than half an hour after class has started, with a note explaining the lateness, should report to the Attendance Office for an admit slip
- The home will be advised of the poor attendance patterns by the teacher
- Students with excessive lates will also face disciplinary action, which may include additional assignments and/or referral to the Vice-Principal, resulting in detentions and/or suspension from school
- If a note or a phone call from a parent has not been provided, students will receive an "unconfirmed" admit slip

Skipping:

Every attempt will be made to help a student resolve an attendance problem. Parental or guardian involvement is encouraged. Students Services will be involved where appropriate. Any absence from class or school for any part of a period or day without the permission of the home or school is considered an UNAUTHORIZED ABSENCE and may affect the successful completion of the course(s). Notes and phone calls from parents and guardians do not relieve students from the responsibility of following all school regulations. Missing time from one class to do work for another is not an acceptable reason for absence. Tests or assignments missed as a result of an unauthorized absence may be subjected to a mark of zero.

One or more of the following actions will occur following an unauthorized absence:

- home contact
- assignment of detentions
- referral to an attendance counselor
- suspension from the class
- suspension from school
- removal from the course

Vaping/Smoking:

Students are not allowed to leave school property during class time or between periods. Any student found to have left school property to vape/smoke during these times will be dealt with through our progressive discipline policy and will face detention or suspension.

20/20 Rule:

The 20/20 Rule means that no students will be allowed to leave the classroom for the first 20 minutes or the last 20 minutes of the class they are in. When you are given permission to leave, you must have your hallway passport signed and dated by your teacher. This hallway pass is found at the back of your student handbook and must be carried with you when in the halls during classes.

Spare Periods:

Students who have achieved 23 credits and are entering their grade 12 year may elect to timetable a spare period. Students on a spare must spend the period in the Learning Commons, the Cafeteria or leave the building. Students are not free to wander the halls during spares.

Extended Leaves/Absences:

Under exceptional circumstances, permission may be granted by the Principal for students to be absent for an extended period of time for personal or family reasons. Any approved absences of more than 3 school days constitutes an "extended leave of absence". Requests for an extended leave of absence should be made in writing to the Principal at least two weeks prior to the requested absence. Students are responsible for work missed during periods of absence, and must recognize that frequent or extended absence may jeopardize their successful completion of their year's programs. In the event that parents choose to take their child(ren) out of school at times other than school holidays, the onus lies with the parents to implement a program. Teachers cannot provide detailed daily homework assignment that replicate the missed school work, however an outline will be provided for work missed to support the student.

Home Instruction:

If an illness or accident necessitates a period of extended absence from school for two weeks or more, application may be made for "Home Instruction". A doctor's certificate is required. Students on home instruction will have a teacher visit the home and work with the student in conjunction with his/her teacher, up to six hours a week.

Neighbourhood/Community Relations:

St. Patrick is a community school with neighbours. As good neighbours, it is important to respect the property of others. Any person on private property is subject to the laws regarding trespassing. The property of our neighbours is private. Students who litter or harass neighbours may be subject to school consequences.

1.2 Student Fees:

A student fee of \$30 is charged to each student to help cover the cost of school handbooks, student I.D. cards, S.S.S.A.A. and O.F.S.A.A. fees and student activities. Students who have not paid student fees are ineligible to participate in co-curricular activities, dances and excursions. Fees are due the last school day in September.

The school is charged by the bank for N.S.F. cheques. This charge will be passed on to the writer of the cheque. Yearbooks will be ordered and paid for separately with the cost to be determined.

1.3 Announcements and Messages:

Announcements:

Announcements are made daily. Students are responsible for all information presented in announcements. Announcements are approved by staff.

Telephone: Messages & Usage:

Every effort will be made to relay important messages received from parents to students at appropriate times during the day. Other than emergencies, students will not be called from classes. Pay phones are situated near the office and are available for student use. Students will not be permitted to use the phones in the school offices except for emergencies.

1.4 Lunch Periods/Cafeteria:

Conduct in the cafeteria will be in keeping with proper etiquette. Students will be in uniform; coats, jackets or any other items which do not conform to the Uniform Policy, and will not be permitted. Food may be consumed in designated areas of the school. Sunflower seeds may not be brought into the school. Students will clear any table they use and put trash in receptacles provided. Cleanliness is everyone's responsibility. The cafeteria is open during the day for students on spare periods; however food sales end after the lunch period. Food will not be sold in between classes.

1.5 Lockers:

Lockers are the property of the Board and are loaned to students for the school year. The Board authorizes Principals/Vice-Principals to conduct reasonable and legal search and seizure in accordance with the Board policy guidelines, with due regard for the rules of evidence and respect for the rights of the individual. The administration has the authority to examine any locker at any time if it is deemed necessary.

Every student will be assigned a locker. Students are expected to use only the locker they have been assigned. Lockers in change rooms are for use only during a student's Physical Education class. Locks may be purchased at the school and placed on the lockers only after assigned to the student and after the combination is recorded in the office. If a lock is changed, the new combination must be reported to the Vice-Principal. Locks found on unassigned lockers will be removed. Only combination locks are allowed.

School insurance does not cover any losses incurred by students. Do not leave items of value in lockers. In preparation for summer-cleanup, locks must be removed and the lockers cleaned out by the LAST DAY OF EXAMS in June, or locks will be cut off.

1.6 Parking:

Students are encouraged to use public transportation due to lack of parking spaces for vehicles. Do not park in driveways or in areas reserved for staff and visitors. Staff parking lots are under the auspices of the City Parking Authority and tickets will be issued for illegal parking.

1.7 Use of Tobacco Products on School Property:

In accordance with the Smoke-Free Ontario Act and consistent with Board Policy 726, smoking and vaping are not permitted within 20 meters of the school's property. It is against the law for any person to smoke or vape on Board property. Board Property includes all school/Board buildings and extends to private vehicles while they are parked on school/Board premises. St. Patrick High School is committed to:

- a) Being smoke free; and
- b) Discouraging students and staff from the use of health threatening tobacco products (i.e. Chewing Tobacco).

- c) Discouraging the use of e-cigarettes and vapours
- d) **Students are not allowed to leave school property during class times or between periods 1&2 and 3&4 to smoke or vape. Any student in violation of this rule will be dealt with through our progressive discipline policy.**

No Vaporizers (or e-cigarettes) – If you are caught with a vaporizer or vaping, the vaporizer will be confiscated, parents will be called and students will be dealt with through our progressive discipline policy.

Therefore, it is a violation of the Code of Behaviour and provincial law for students to use any tobacco products in the school or on the school property. The school is obligated to report offenders to the Thunder Bay District Health Unit Enforcement Officer. A fine or suspension will be imposed for tobacco violations.

Warnings are no longer issued to offenders. Students reported for violation of the smoking policy are subject to a fine (in excess of \$300) and/or other corrective action that the Tobacco Enforcement Officer might choose to take.

1.8 Extra-Curricular Activities:

Extra-curriculars are an integral part of the learning environment at St. Patrick High School. It is our belief that involvement in extra-curricular activities contributes to the development of the whole person. As such, the school provides an extensive extra-curricular program offering activities of interest to all students. These are contingent upon student interest, staff involvement and the availability of sufficient resources to ensure the viability of any program. All students are encouraged to get involved in the life of the school beyond the classroom. Parents are also encouraged to participate as volunteers and supporters.

It is the responsibility of staff in charge and participants of various activities, clubs or teams to verify the eligibility of participants as detailed in this policy. A list of ineligible students is published after each formal reporting period. In addition, no extra-curricular activities, meetings, etc. are to be scheduled one week prior to or during the examination period. Requests for exceptions should be forwarded to the principal.

Eligibility:

Participation in any extra-curricular activity is a privilege, which is granted to students at St. Patrick High School who, to the best of their ability, continue to fulfill their obligations as students in a Catholic school. The intent of this policy is to provide students the opportunity of participating in the school athletic and extra-curricular programs while at the same time emphasizing the importance of academics. It is anticipated that through this active involvement in the school community the student will grow in self-confidence and self-understanding. Furthermore, it is hoped that the student's faith, intellectual, social, and emotional development will flourish. The school administration may revoke this privilege when the student demonstrates:

- Deliberate failure to attend classes (students must attend all classes throughout the entire school day in order to participate in extra or co-curricular activities that day)
- Repeated late arrival for classes or for school

- Poor academic performance (failing 50% or more of course load)
- Conduct detrimental to the moral tone of the school

Furthermore, any student failing 50% or more of their course load at the mid-term or end of the semester report will not be eligible to participate in extra-curricular activities. Students deemed ineligible may be reinstated if they are passing more than 50% of their courses at the next reporting date (mid or end of the semester). There is a carryover between semesters and/or school years (i.e. semester two in one school year to semester one in the subsequent school year).

Appeals:

Students may appeal their eligibility status through an Appeals Committee, made up of the principal (or designate) and two teachers in consultation with other appropriate staff members. In the case of Athletics, the Appeals Committee will be made up of the Principal (or designate), the athletics chair, and a member of the coaching staff not directly involved with the sport. In all cases, input will be sought from the subject teachers, the Teacher Advisor and other appropriate staff before a decision is made. All staff in charge of various activities, clubs or teams are responsible for verifying that academic standards are being met by the students involved. This is done at the time of selecting students for the activity and then again on the dates outlined above. Exceptional cases will be reviewed.

1.9 Textbooks and Equipment:

Textbooks and equipment are loaned to students as required. These items remain the property of the school. Students will be held responsible for the care and replacement of lost or damaged texts or equipment. Students are expected to return textbooks, library books and equipment to the school, as failure to do so will result in increased costs for parents and students. No textbooks or other materials will be distributed to students in subsequent semesters until outstanding materials are turned in or paid for.

1.10 Electronic Devices:

St. Patrick High School supports a Bring Your Own Device (B.Y.O.D.) program for all students. This program is a component of the Board's Technology Plan. A B.Y.O.D. device is considered to be a productivity device that students can utilize to support their learning.

A B.Y.O.D. program is not mandatory for students. Students are permitted to use their own laptop, tablet and smartphone to complete work as assigned and directed by the classroom teacher. The classroom teacher will regulate and determine usage of how and when B.Y.O.D. devices are utilized in their classrooms. Students not bringing their own device to school will have access to school provided devices as required by their teachers.

Support and maintenance of student owned devices are the sole responsibility of the student and not that of the Thunder Bay Catholic District School Board and its Staff.

Usage time:

1. They will only be permitted for text and email purposes during the students' break times (before 1st bell, in between each period, lunch time and after school)
2. Students on spare will be permitted to use electronic devices in the learning commons and the cafeteria
3. No cell phones in the office

Usage Rules:

Do's

1. Student's will only be permitted to text and email
2. Can only have one ear bud in their ear. Headphones are not to be worn.

Don'ts

1. Cannot speak on the device...no conversations
2. Devices cannot ring
3. Cannot take photos, video record or audio record
4. Cannot Facetime/Skype / Snapchat / Instagram etc.
5. Cannot use the device in any way that would be deemed as inappropriate i.e. bullying

Classroom

1. Electronic devices will be used exclusively for educational purposes, **only** at the discretion of the staff
2. Students who do not follow the electronic device policy will have the electronic device confiscated by administration, and a detention issued. Parents/guardians may be contacted prior to the return of the devices. Persistent offences may lead to suspension.

1.11 Elevator Use:

Students requiring the use of the elevator on a temporary basis due to a physical injury may obtain an elevator key from the Main Office. A \$20.00 deposit is required before a key can be issued. Students who use the elevator inappropriately will forfeit their right to its access. Deposit will be refunded upon return of the key.

1.12 Waste Reduction:

As an environmentally friendly school community, we aim to make a difference by following a few simple rules. Aluminum cans, plastic bottles, juice boxes and milk cartons should be placed in one of the many blue recycling containers situated throughout the school. As well, each classroom is equipped with a paper recycling bin that students are encouraged to use. Disposing of any other waste in the containers provided both in and out of the school is expected and appreciated!

1.13 Concussion Protocol:

Any student who is suspected of having sustained a concussion, whether at school or outside of school, must report it to administration. Administration will follow the TBCDSB's concussion protocol which requires a doctor or nurse practitioner's note.

Section 2 Assessment, Evaluation and Reporting

Assessment and evaluation of student achievement will be consistent with our Catholic beliefs and values. It will support the delivery of a distinctly Catholic curriculum, respect the worth and dignity of students and challenge them to acquire the knowledge, skills and values essential to reach their potential and to participate fully in society.

2.1 Assessment and Evaluation:

Assessment is the process of gathering information from a variety of sources. Including assignments, demonstrations, projects, performances, and tests that accurately reflect how well a student is achieving the curriculum expectations of a course. As part of assessment, teachers provide students with descriptive feedback that guides their effort towards improvement.

Evaluation refers to the process of judging the quality of student work on the basis of established criteria, and assigning a value to represent the quality. In Ontario secondary schools, the value assigned will be in the form of percentage grade.

Achievement refers to student performance.

Ministry Policies:

The Ontario Curriculum and the Program and Assessment Guide for Grades 9 – 12 state that “The primary purpose of assessment and evaluation is to improve student learning. Information gathered through assessment helps teachers to determine students’ strengths and weaknesses in their achievement of curriculum expectations.”

In accordance with Ministry policy, assessments and evaluations within the school will be based on the provincial expectations and the achievement levels outlined in the curriculum policy document for each discipline.

In order to ensure the assessment and evaluation are valid and reliable, and that they lead to the improvement of student learning, teachers used assessment and evaluation strategies that:

- ✓ are based both on the categories of knowledge and skills and on the achievement level descriptions given in the achievement chart that appears in the curriculum policy document for each discipline
- ✓ are varied in nature, administered over a period of time, and designed to provide opportunities for students to demonstrate the full range of their learning
- ✓ are appropriate for the learning activities used, the purposes of instruction, and the needs and experiences of the students
- ✓ Accommodate the needs of exceptional students, consistent with the strategies outlined in their Individual Plan

- ✓ ensure that each student is given clear directions for improvement
- ✓ promote students' ability to assess their own learning and to set specific goals
- ✓ include the use of samples of students' work that provides evidence of their achievement
- ✓ communicate clearly to students and parents at the beginning of the course and at other appropriate points throughout the course

Achievement Charts:

The achievement chart for each discipline is included in the curriculum policy document for each discipline. The chart provides a reference point for all assessment practice and a framework within which to assess and evaluate student achievement. Each chart is organized into four broad categories of knowledge and skills: Knowledge/Understanding, Thinking/Inquiry, Communication, and Applications/Making Connections. The achievement chart also describes the levels of achievement of the curriculum expectations within each category. The description associated with each level serve as a guide for gathering assessment information and enable teachers to make consistent judgements about the quality of student work and to provide clear and specific feedback to students and parents. The achievement chart provides a standard province-wide method for teachers to use in assessing and evaluating their students' achievement. The following table provides a summary description of achievement in each percentage grade range and corresponding level of achievement:

Percentage Grade Range	Achievement Level	Summary Description
80% - 100%	Level 4	A very high to outstanding level of achievement Achievement is above the provincial standard
70% - 79%	Level 3	A high level of achievement Achievement is at the provincial standard
60% - 69%	Level 2	A moderate level of achievement Achievement is below, but approaching the provincial standard
50% - 59%	Level 1	A passable level of achievement Achievement is below the provincial standard
Below 50%		Insufficient achievement of curriculum expectations A credit will not be granted

- Level 3 (70% - 79%) is the provincial standard. Teachers and parents can be confident that students who are achieving at Level 3 are well prepared for work in the next grade or the next course.

Growing Success Assessment, Evaluation & Reporting Policy

Absences:

If a student has an excused absence on the date a test is written or when an assignment is due, students will be given the opportunity to write the test or submit the assignment on their return to class. Arrangements may be made for students to write tests during lunch or before/after school hours. If students are absent without cause, teachers may assign a grade of zero on the test or assignment.

Homework:

The purpose of homework is to give students opportunities to complete work begun in class and to apply the skills and knowledge taught. **If homework is to be evaluated, it is to be communicated prior to teacher assigning the work.** Daily completion of homework is expected and will be checked regularly.

Late Assignments:

All assignments are to be submitted to the teacher on the due date. Lateness will be treated seriously with a two-day window of opportunity for students to complete and submit an assignment. If students do not submit work by the due date, 10% will be deducted. Each day to a maximum of 20%. Failure to submit assignments by the second day could result in a mark of zero. Teachers have a responsibility to instruct students in time-management skills, but students are responsible for their actions and must be allowed to discover the consequences of those actions.

Missed Tests/Assignments Policy:

If a student misses a test or does not submit an assignment without a valid reason, a mark of zero may be assigned. Students are expected to complete every in-class test on the day and appointed time that the teacher administers the test. In the case where certain circumstances cannot be avoided (i.e. excursion, doctor's appointment, school activities, sport activity etc.) special arrangement in advance must be made with the teacher for an alternate time and date. This policy applies to all students regardless of grade or course level. Failure to follow this policy could seriously affect a student's final grade in any subject area.

Group Work:

Group work is an effective learning strategy that provides students with opportunities to share their insights and consolidate their learning. An overall group mark is not to be assigned since it would not reflect individual contributions. **Each student will be evaluated individually in group activities.**

Academic Honesty Policy:

Academic dishonesty (plagiarism, cheating, copying others work) is a serious offense and must have significant consequences. Consequences may include a reduction of marks up to 100% depending on the severity of the offense.

Plagiarism is defined as presenting someone else's words or ideas as one's own. It can take the form of:

- Submitting an assignment that was completed by another and claiming it as one's own.
- Incorporating large segments of someone else's work and only using connecting sentences without reference to the source.
- Copying sections from the Internet without referencing the source.
- Direct copying of another person's re-write of an assignment as in the case of a parent/guardian, tutor or ghostwriter.

If teachers suspect that an assignment has been plagiarized, they will speak to the student to determine the source of the work. If students have produced a plagiarized assignment, teachers will not evaluate the work and will assign a grade of zero.

Guiding principles:

- Students' understanding of the concept of academic dishonesty depends on their age and stage of development
- Plagiarism is using the work or ideas of another writer as though they were your own. Students must understand the concept of plagiarism and why it is wrong to plagiarize
- When working on assignments, students' progress skills should be monitored and directed along the way to ensure the appropriate use of reference materials.

Parent/Teacher Communication:

Parents/guardians are strongly encouraged to constantly monitor student progress throughout the semester. Parents/guardians are always welcome to contact the teacher at the school at 623-5218, if they are concerned about student progress. Student achievement will be formally communicated to parents at mid-term and at the end of the semester with the Provincial Report Card. Interim Reports (before the mid-term) will also be issued to grade 9 and 10 students and to senior students experiencing difficulties. Opportunities for parent / teacher interviews will be available for all students at the interim reporting period.

Exam/Summative Assignment Policy:

All students will complete a final examination in each course and complete other summative assessments as part of the student evaluation process. Advanced notice must be given to the principal, if for a serious reason the student cannot write the exam on the set date (an extended holiday is not an acceptable reason). Trips and sporting tournaments will not be accommodated. The principal will set an alternate date and time to write the exam. Alternate dates for completion of summative assignments must be negotiated with the teacher (the late assignment policy may apply).

Late Arrival to Exam:

Students who arrive late, up to one hour, will be allowed to write the exam. Time extension will be given only under exceptional circumstances.

Provincial Test/Assessment Policy:

All eligible students in Grade 9 and 10 will take part in the Provincial Grade Nine Assessment of Mathematics and the Grade 10 Literacy Test. The results of the assessment and test will be used as a diagnostic assessment only and will be used to develop improvement strategies that address weaknesses at the individual, school and board level.

2.2 Communication with Parents:

Teachers will establish a partnership with parents and students that promotes timely, regular communication (eg. monthly calendar, communication book/log, homework tracker, voice-mail, e-mail, websites). Teachers will communicate with parents regarding:

- a) attendance (communicate after five absences)
- b) difficulties in any subject area
- c) homework, tests and assignments

Time Guidelines:

Teachers will use professional judgement and discretion to alter quantity and time frame of homework to meet periodic extraordinary circumstances in the classroom, or with specific students. Normally, homework will not be assigned during school holidays.

Returning Work Policy:

A teacher is expected to return work in a timely fashion in order for a student to improve his/her learning. All material used for student evaluation should be returned before a formal report. Final exams and other end of the course summative assessments will remain the property of the curriculum unit, however, students and/or parents may view this material upon request.

2.3 Reporting:

Student Achievement:

Student achievement is communicated formally to students and parents by means of the Provincial Report Card, Grades 9 – 12. The report card focuses on two distinct but related aspects of student achievement: the achievement of curriculum expectations and the development of learning skills. To more clearly reflect these two aspects of student achievement, the report card contains separate sections for reporting on achievement of the curriculum expectations and for reporting on demonstrated skills required for effective learning. The report card also includes teachers' comments on the student's strengths, areas in which improvement is needed, and ways in which improvement might be achieved. Separate sections are provided for recording attendance and lateness in each course.

Reporting on Achievement of Curriculum Expectations:

The report card provides a record of student's achievement of the curriculum expectations in every course, at mid-semester and at the end of a semester, in the form of a percentage grade. The percentage grade represents the quality of the students' overall achievement of the expectations for the course and reflects the corresponding level of achievement as described in the achievement chart of the discipline. A final grade is recorded for every course, and a credit is granted and recorded for every course in which the student's grade is 50% or higher. The final grade for each course in Grades 9 – 12 will be determined as follows:

- 70% of the grade will be based on evaluation conducted throughout the course. This portion of the grade reflects the student's most consistent level of achievement throughout the course, although special consideration is given to more recent evidence of achievement.
- 30% of the grade will be based on a final evaluation in the form of an examination, performance, essay, and/or other method of evaluation suitable to the course content and administered towards the end of the course.

In all of their courses, students will be provided with numerous and varied opportunities to demonstrate the full extent of their achievement of the curriculum expectations, across all four categories of knowledge and skills:

1. knowledge/understanding
2. thinking/inquiry
3. communication
4. application/making connections

Reporting on Demonstrated Learning Skills:

The report card provides a record of the learning skills demonstrated by the student in every course, in the following five categories: Works Independently, Teamwork, Organization, Work Habits, and Initiative. The learning skills are evaluated using a four-point scale (E - Excellent, G - Good, S - Satisfactory, N - Needs Improvement). The separate evaluation and reporting of the learning skills in these five areas reflects their critical role in students' achievement of the curriculum expectations. To the extent possible, the evaluation of learning skills, apart from any part of a curriculum expectation in a course, should not be considered in the determination of percentage grades.

Community Involvement:

As part of the diploma requirements, all students must complete a minimum of 40 hours of community involvement activities. These activities may be completed at any time during their years in the secondary school program.

Section 3 Transportation

School bus routes service most of the South Ward and outlying areas designated for St. Patrick High School.

While riding buses, STUDENTS ARE EXPECTED TO BE ON THEIR BEST BEHAVIOUR AND IN SCHOOL UNIFORM. If complaints are received, the student involved may lose the privilege of Board-subsidized transportation. Students who skip classes will not be allowed to return home on the bus that day.

Student transportation is provided for school-sponsored excursions/ events. Students wishing to use their own vehicle to get to a school event during class time may do so but must not carry passengers during school time unless they have completed the appropriate school forms. Transportation is provided to all SSSAA activities. Return transportation is provided back to the school from the North Ward venues only.

Section 4 Emergency Situations/Evacuation

Emergency Dismissal:

Occasionally it may become necessary to dismiss pupils prior to the normal school closing hour because of sudden and unexpected snow storms, heating plant failure or other emergencies. On many occasions, both parents are absent from home during school hours. Emergency sites have been established for students in the event of an emergency or evacuation. Should students not be able to return to the school:

1. bussed students will be transported as soon as possible to their regular drop off
2. walkers will be dismissed
3. parents may be contacted in the event that students are not appropriately dressed for the weather

Students are expected to have an emergency plan should parents/guardians not be home.

Every alarm must be treated as though it is a real emergency – drills are intended to give you an opportunity to rehearse the procedures that may save your life and the lives of your friends.

1. When the alarm sounds, follow your teacher's instructions
2. Leave the building quickly and quietly
3. Students are NOT to stop at lockers for personal belongings
4. Once students are assembled outside, they are to remain with their class for attendance
5. If evacuated to any of the designated off-campus sites, students are reminded to:
 - a. proceed calmly, carefully and quickly to that site
 - b. look both ways when crossing a street and follow the directions given by the teacher designates who are directing traffic and pedestrians
 - c. on arriving at the designated site, reassemble as a class and await the teacher
 - d. wait for further instructions

An evacuation of the school, whether real or a drill, is a serious event. **IT IS NOT A BREAK AND SMOKING IS NOT PERMITTED.** Students are not to re-enter the school, under any circumstances, until instructed to by the principal or one of the vice-principals. Students evacuating via the Walsh Street, Selkirk Street or Moodie Street exits, are to move immediately to the sidewalks and remain there. Those students evacuating to the football field area are to proceed beyond the parking area and assemble as a class in the field area.

Emergency Lockdown Plan:

In order to ensure a secure school environment in the school on a daily basis, emergency plans are in place for evacuation and medical emergencies. Some emergencies however, may prevent the safe evacuation of the school and require steps to isolate students and staff from danger. One of these procedures is LOCKDOWN. There are different degrees of lockdown dependent on the situation. There is a comprehensive plan in place at the school to ensure the safety of students and staff.

Section 5 School Dress Code

Staff Dress Statement:

Working in a school environment where uniforms are worn by students, staff dress shall reflect a "professional image". This image allows staff to model responsible behaviour for the students which results in a disciplined, orderly tone in the school. A. STUDENT RIGHTS AND RESPONSIBILITIES

The goal of St. Patrick High School is to provide for the student's growth as a person and as a Christian. As basic to this goal, we respect the sacredness, dignity and uniqueness conferred upon the person by God.

Growth in knowledge, skills, values and attitudes will be promoted in an atmosphere of learning and encouragement of academic excellence. In cooperation with the home and with the Church, the school will further the student's growth in goodness and in discipline by fostering the development of his/her moral sense, and ability to love.

Discipline is understood as personal self-development. It is positive, accepting and understanding by being firm, demanding and consistent.

Catholic Schools provide the opportunity for students to develop their spiritual, intellectual, emotional, physical and social abilities in a Christ-centred environment. These abilities can best be developed in an atmosphere in which students feel

safe, secure, and comfortable. Students share responsibility for the quality of education through full participation, and respect for self and others. To this end, students at St. Patrick High School have certain rights, which must be safeguarded through the cooperative efforts of the student body, staff, parents and the community. D. COMPUTER RELATED REGULATIONS

Rationale:

The Thunder Bay Catholic District School Board provides students with access to networked computer resources for the purposes of accessing information, doing school-related assignments, and meeting the requirements for completion of computer-related courses

The Board also provides access to the Internet in recognition of the educational value related to the Board's philosophy, aims and objectives. The Internet is an electronic information and communication 'highway' connecting millions of computers together all over the world. Students, teachers and support staff have access to electronic mail, information and news, public domain and shareware software, discussion groups, and access to universities, colleges and libraries.

Precautions:

With access to computers and information across the world comes the availability of material that may not be considered of educational value in terms of the Board's philosophy, aims and objectives. The Thunder Bay Catholic District School Board has taken precautions to restrict access to controversial material within its control. However, on a global network, it is impossible to control all material and users may inadvertently discover inappropriate or controversial information.

Therefore, the Board has established guidelines for the use of the Internet and school networks.

Guidelines for Acceptable Use:

- the use of school computer resources is a privilege, not a right
- the right to privacy must be respected and no student shall use another person's password to log onto the system or access any person's files
- use of the Internet to acquire or generate information shall be consistent with the educational philosophy of the Board
- Internet users are required to sign an agreement that outlines their responsibilities

Examples of Unacceptable Use

- attempting to circumvent local or remote security systems
- developing, using or transmitting material that harasses others
- sending or receiving fraudulent messages, obscene images and/or vulgar language
- transmitting any advertising, solicitation, transaction or promotion for gain
- breaching software and copyright licensing agreements
- placing a virus on a computer
- using another person's password
- trespassing into another person's files, folders or computer

NOTE: If your password is used by another person, you are responsible for any violations of the rules and consequences will apply to you as well.
You must keep your password private-change it often.

Consequences:

Unacceptable use of the school computer network and/or the Internet will result in one or more of the following:

- parent/guardian will be notified (if under 18 years of age)
- a suspension to a maximum of 10 days
- temporary or permanent removal from the computer network which may result in a loss of credit for a computer-related course

Bullying fails to respect the dignity and value of all individuals involved. St. Patrick High School believes that all forms of bullying are unacceptable behaviors.

Damage to property in the school environment (including school grounds and buses) is unacceptable.

This policy ensures fairness of treatment for all concerned and lists explicit consequences for offenders. For those students aged twelve to seventeen years of age, the Young Offenders Act will apply. Students who are eighteen years or older are considered adults, and the procedures of the Criminal Code will be followed if these students are charged with a criminal offence.

- Inform the school if bullying is suspected
- Support the school when dealing with incidents of bullying

In keeping with the Safe School policy, St. Patrick will implement mandatory penalties for any bullying behaviour. A bullying prevention action plan has been developed and will be reviewed by all students throughout the school year.

Students and Parents/Guardian are advised that all violent acts will be recorded in the Student's O.S.R. file. In addition, the Ontario Ministry of Education and Training will be notified, by law, of such incidents.
