

December 13, 2021

Dear Parents and Guardians,

The Ministry of Education has required that as an additional safety measure, parents/guardians must confirm that they have completed the provincial [COVID-19 School and child care screening tool](#) for their child/children for the first two weeks of school in January 2022. While the expectation has always been for parents to screen their children daily, the additional written/verbal confirmation of screening is required.

Parents/guardians are required to screen their child using the provincial [COVID-19 School and child care screening tool](#) prior to sending their child to school every morning. If your child does not pass this mandatory screen, do not send your child to school.

**Kindergarten to Grade 3 and Students with special needs:**

Students in Kindergarten to Grade 3 and students with special needs who are unable to verbally verify their daily screen, are required to utilize this form. Please complete this form to verify this screening will occur.

**Students in Grades 4 – 12:**

Students in Grades 4 - 12 will verbally confirm that they have completed the daily screening during attendance with their classroom teacher.

Using your smartphone, you can scan the following code with your camera to access the COVID-19 School and child care screening tool.

-----  
Please complete and return to the school on or before January 3, 2022.

**CONFIRMATION OF DAILY COVID-19 SCREENING**

I confirm that I will complete the COVID-19 school and child care screening daily.
